

Road Kill

By: Mrs. Irene Williams

People get afflicted in life and don't know how to get healed.
They succumb to their weakness and are left by the side of the road for road kill.
They're just wounded. They're not dead.
They just need a touch from God and to know what He said.
The affliction may be drugs, sex, murder, or alcohol.
Don't let that matter to you at all.
It's not important what caused the road kill. It's only important for them to live.
Jesus Christ is passing by. Don't miss an opportunity to do what He does.
You're His earthen vessel. He has empowered you.
If you pass road kill – don't pass them by.
Do all you can to help, don't let them die.
Share with them the gospel of Jesus Christ.
Love and encourage them until they regain new life.
The road kill that you pick up - don't you condemn.
It's only by God's grace that you're not them.
Any negativity you must not say.
Just give God the glory, and you pray.
There is never a heart that the Savior can't heal.
Pick up the roadkill so wounded hearts can be healed, and God's glory revealed.
God is not surprised by what you may find on road kill.
It's that person's heart He's trying to reach and heal.
No one is exempt from becoming a victim of road kill,
because in this world we have an adversary who wants to destroy and kill.
Pick up all road kill. Their lives are at stake.
Make that adversary a liar, and their souls don't let him take.

God specializes in redeeming road kill.

He cleanses, delivers, and he heals.

He uses them in His Kingdom, and shows them their purpose, too.

The believer driving by – I'm talking to you.

Be vigilant and discerning while you're riding on the road through the journey of life. Look for road kill. Don't pass them by.
